This **PRINCE2 Agile Foundation & Practitioner** (level 1 & 2) course offers an excellent fast track for students who want to become certified in a highly recognized and valued project management standard.

WHO IS THIS COURSE AIMED AT?

PRINCE2 Agile certifications have become highly recognized and respected in a number of public and private sector industries, reflecting the growing importance of project management as a corporate discipline.

This course will explore the basics of PRINCE2 and Agile, as well as the reasons for combining the two frameworks. Students will then go into detail about how to adapt and the apply the frameworks in practice for projects ranging in size, scope, industry, location and more.

By the end of the course, students will be capable of making valuable contributions to project management teams within PRINCE2 Agile environments, and even take on leadership positions if required.

WHAT WILL YOU LEARN?

- The principles, themes, processes and environments that make up PRINCE2 Agile, and the relationship between them
- The theory and practical applications of Agile project management
- The purpose and advantages of combining PRINCE2 and Agile
- How to tailor and apply PRINCE2 to projects within an Agile context
- How to evaluate how effectively PRINCE2 Agile has been applied to a project
- How to adjust elements of PRINCE2 Agile to enable better project outcomes
- Everything needed to pass the official PRINCE2 Agile Foundation and PRINCE2 Agile Practitioner exams
